## **1948 PACKARD 22<sup>nd</sup> SERIES EXPORT SIX TOURING SEDAN**

Recently restored and in superb condition throughout, huge number of photos, descriptions, and bills for restoration amounting to a vast amount, fascinating early history. Built, we understand, in the USA at Packard's Detroit, Michigan factory as a right hand drive, crated and exported to South Africa, imported (with documentation) into UK in 1981 but owner had to return to RSA and so stored and not UK registered until 2009. Present owner had car professionally restored, odometer reading of 32,500 highly likely to be correct and supported by huge history file, drives beautifully with powerful 6 cylinder 4 litre engine and 3 speed column change. Comes with V5C, front seat belts and various service manuals; a quantity of spares are available by separate negotiation. This car needs a large garage as it is 17 feet long. A unique opportunity to acquire an exceptional iconic American sedan.
