1983 Renault 4 GTL

Over 8 million were made making this the most produced French car ever, yet very few UK market rhd examples remain, even more so this later 1100cc example with scarce painted bumpers. Slightly less quirky and better made than the 2CV, it remains an utterly charming very useable 5 door hatchback with reasonable performance and the delightful umbrella stick gear-change. This particularly example seems sound and very presentable in metallic green with a good interior, it comes with a new MOT, running well with very good tyres, service history to 80,000 miles, only 4 previous owners, a good history file right back to its early days, driver's handbook and repair manual.
